Fetița a descoperit în biblioteca părinților o carte despre o lume magică a vrăjitoriilor. A rămas facinată de școala vrajitoreasca prezentata și -a imaginat că studia la acea școală. În acel vis ea călătorea pe un hipogrif, un animal legendar care putea să o ducă oriunde și-ar fi dorit. Atunci a realizat că, deși cărțile nu aveau ilustrații, puteau fi captivante prin cuvintele care puteau construi imagini la fel de frumoase ca picturile.

Sihirli sözcükler konuşuyor mutluluk yayıyormuş. Gitmediği ülkelere gidiyor, yeni insanlar tanıyor ve kitapların içinde sakladığı gizemleri öğreniyormuş.

Magic words was speaking and spreading happiness. She was going to countries he had never been to, meeting new people and learning the mysteries hidden in books.

ERTUĞRUL GAZİ İLKOKULU-ASLAN ALİ DEMİRKOL

The little girl discovered in her parents' library a book about a magical world of sorcery.

She left the current wizarding school and imagined that she was studying at that school. In a hurry, the hippogriff, the legendary animal that could take her anywhere she wanted. It was then that he realized that although the books had no illustrations, they could be captivating through words that could build images as beautiful as paintings.

Küçük kız, ebeveynlerinin kütüphanesinde büyücülüğün büyülü dünyasını anlatan bir kitap keşfetmişti.

Sunulan büyücülük okuluna hayran kalmış ve kendisinin bu okulda okuduğunu hayal etmişti. Hayalinde onu istediği yere götürebilecek efsanevi bir hayvan olan hipogrif'e bindiğini görmüştü. İşte o zaman, kitapların illüstrasyonları olmamasına rağmen, resimler kadar güzel görüntüler oluşturabilecek kelimelerle büyüleyici olabileceğini fark etmişti.

Astfel, fiecare personaj a început să prindă culoare și viață în imaginația ei. Mai ales hipograful și copiii vrăjitori. Apoi, împreună cu noii ei prieteni din lumea cărții fetița a trăit aventuri și a călătorit prin toată lumea. A râs, s-a enervat și a plâns cu ei, a tremurat pentru viața lor, s-a bucurat când au reușit. A îndrăgit cartea atât de tare încât...

So, every character started getting colours and life in her imagination. Especially the hippograph and the wizarding kids. Then, with her new friends from the book, the little girl lived adventures and travelled around the world. She laughed, got angry and cried with them, was scared for their life, then happy when they succeeded. She loved the book so much that...

Gülce did not expect to see so many books. While she was admiring the shelves, a book fell right in front of him from one of the shelves. She picked up the book from the floor and looked at the book cover. It was as if this wonderful book was inviting her to read it.
She started reading with excitement. Now he goes to the library every day and stays there for hours.

Gülce, kitap okumayı sevdiği gibi arkadaşlarına da kitap okumayı sevdirmiş. Onlar da Gülce'yle kitap okumaya başlamışlar. Hayaller kurmuşlar, okudukları kitapları anlatıp kahramanların yerine geçmişler. Beraber gülüp eğlenmişler. Kitap okumanın kendilerini geliştirdiğinden bahsetmişler. Sınıftaki diğer öğrencilerin de kitap okumaları için çaba sarf etmişler. Böylece kitap okumanın ne kadar önemli ve değerli olduğunu kavramışlar.

Just as Gülce loves reading books, she also made her friends love reading books. They also started reading books with Gülce. They dreamed, talked about the books they read and took the place of the heroes. They laughed and had fun together. They mentioned that reading books improved themselves. They made an effort to get other students in the class to read books, too. Thus, they realized how important and valuable reading books is.
